SUPERMAX SUITES

GATHER

THE SUITE LIFE HAS NEVER BEEN SWEETER

PASSION

When your passion outgrows your garage, the Hideout is your ultra-secure solution. As spacious as a warehouse and as luxurious as a penthouse, a Hideout Supermax Storage Suite offers the space you need and the flexibility to design a lifestyle that's boldly, uniquely yours.

DESIGN

Each high-security unit is fully customizable—whether you're dreaming of a chef's kitchen, game room, clubhouse, or home theater, this is where your passion comes to play. Unlike other developments, the Hideout is built to the same uncompromising standards as a maximum-security prison, giving you total peace of mind that your prized possessions are protected.

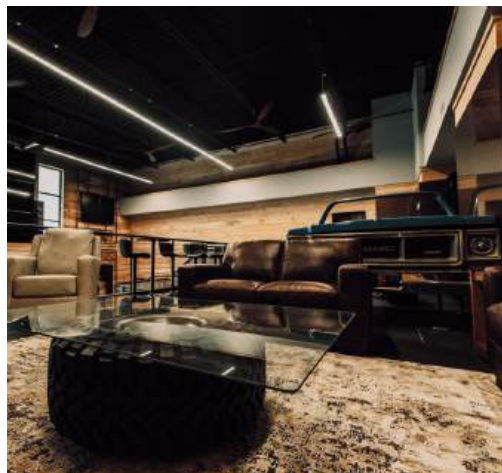

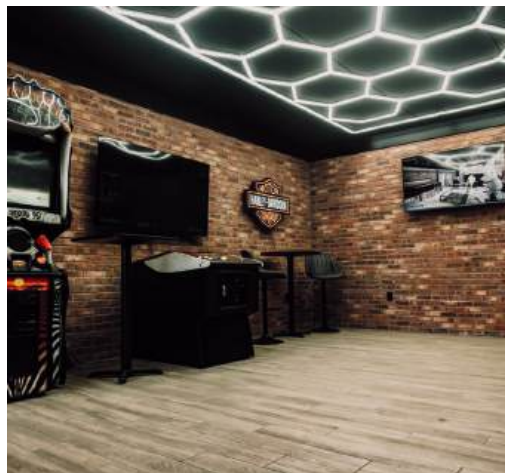

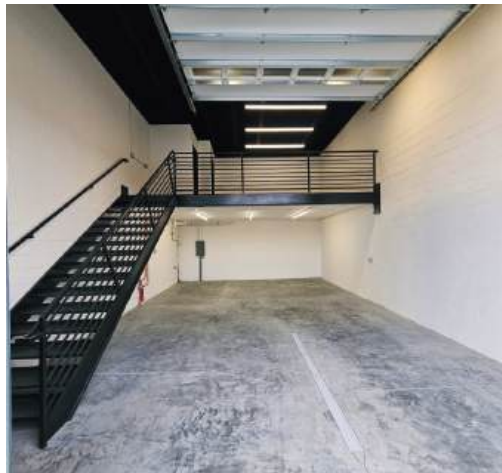

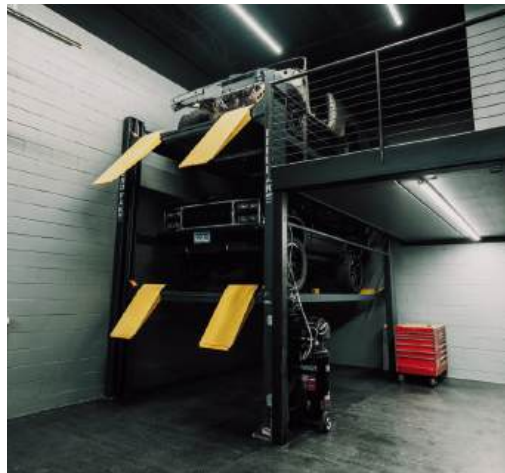

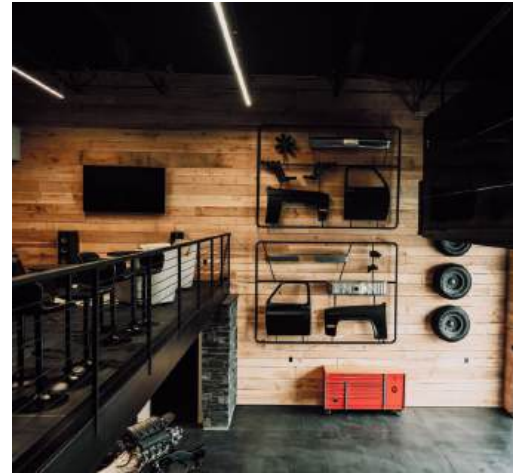

COMMUNITY

The best part?
Right outside your oversized garage door is a one-of-a-kind community of like-minded enthusiasts. You've earned the good life—The Hideout lets you take the “play hard” part to the next level. Welcome to the suite life.

OWNERSHIP

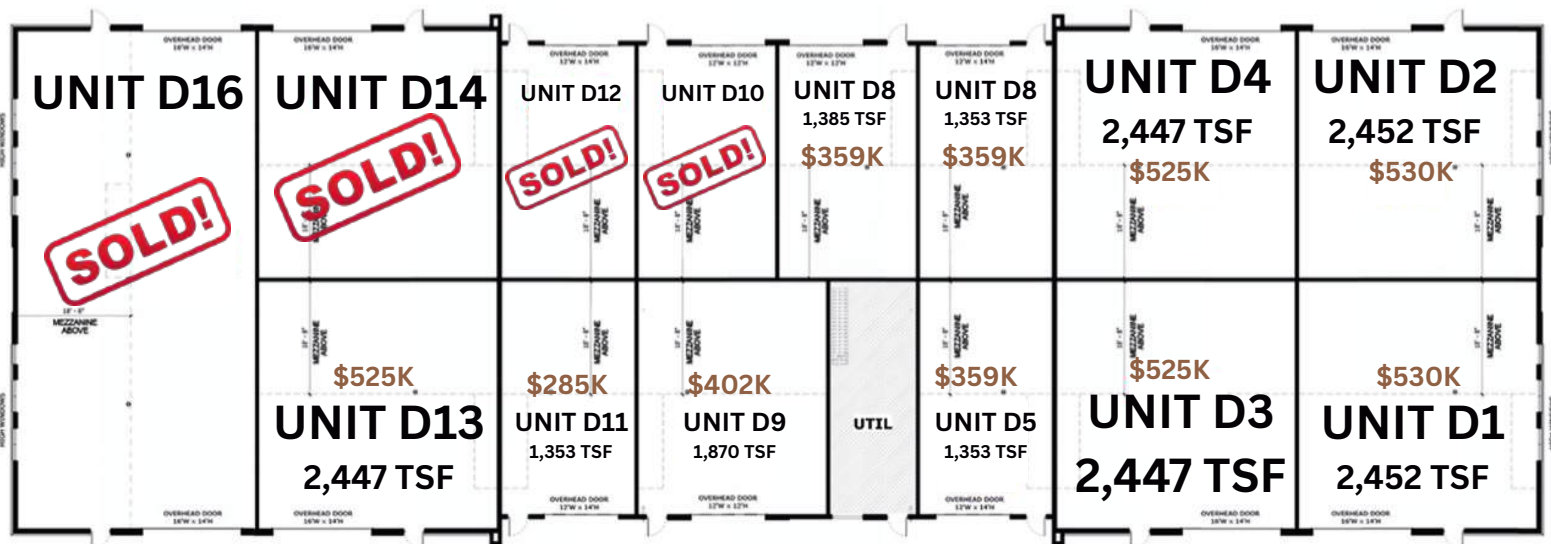

BENEFITS

A Hideout SuperMax Suite is more than just a personal space—it's a premium real estate asset you own. With high-quality construction, long-term durability, and growing demand for secure, multi-use storage, your suite builds equity while serving your lifestyle. It's a smart investment that offers both personal enjoyment and lasting value.

BUILDING D

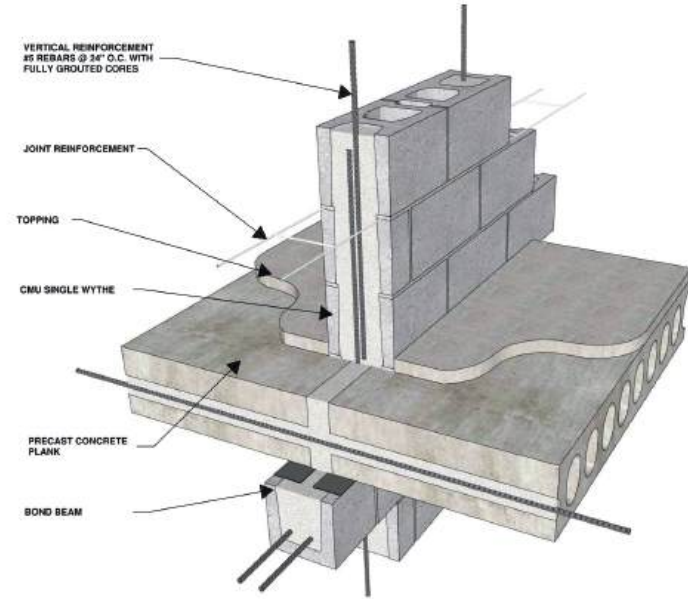

STRUCTURE

THE HIDEOUT DIFFERENCE

The custom interiors get all the attention, but the real hero is the structure itself. Each Hideout SuperMax Storage Suite is built with reinforced concrete masonry—using a single wythe technique where one solid layer serves as both structure and finish. Unlike pole barns or wood frames, this method offers superior strength, fire resistance, weather protection, and sound control. It's the same material used to build maximum security prisons—for good reason.
